# Easily record all original video feeds = ISO recording =

Recording all your video feeds for post-event editing or future archiving. The Matrox VS4 sends your video feeds to Wirecast for live production and streaming, while enabling you to simultaneously record all your original video feeds to disk (Matrox MPEG 2 I-Frame codec at up to 300 Mb/s in HD).

After your live event, all the high-quality original material is available for creating trailers, promo packages, VOD content and new projects.

# Full HD 1080p live streaming

## 1080p Streaming

Wirecast lets users stream in both SD and HD (1080p) to live streaming services or your own internal streaming server.

Stream to multiple destinations and bitrates with just a few clicks.

## Record your output to disc

Wirecast also lets you save your production to disc for future archiving or on-demand distribution.

## Virtual Camera Out (Windows only)

Wirecast output can also be picked up as a camera source in other devices or software such as Skype, Google Hangouts and GoToMeeting.

## Streaming Formats

- QuickTime (MainConcept H.264)
- Flash (On2(VP6) and MainConcept H.264)
- Windows Media

## Streaming Protocols

- RTMP
- RTSP
- MMS (Windows)

# Green Screen, Virtual Sets and more

## Up to 35 layers on screen simultaneously

In addition to your live video sources, Wirecast makes it easy to mix your live feed with pre-recorded video clips, titles and graphics. Switch and mix at will, compositing up to 35 layers on screen simultaneously..

## Transitions

Add polish to your broadcasts with professional-looking transitions – from simple cuts and dissolves to cross-fades, 3D cubes, swinging doors and more.

## Titles/Lower Thirds

Easily add titles and lower thirds to your broadcast, with more than 30 built-in professional broadcast quality title themes. Pick your favorite, enter your text and you're done.

## Composite Templates

Benefit from 10 different composite templates. Make a professional multi-camera show using picture in picture, side by side or as many as three different sources in one shot.

### Green Screen/Chroma Key

Transport your production to a new studio or location using Wirecast's high-quality GPU accelerated real-time green screen. Replace your (green) background with your own video or still image background.

### Scoreboards & Virtual Sets **PRO**

Use the built-in scoreboard templates to track scores for live action sporting events. Customise colors and fonts to capture team spirit. Create a virtual TV studio environment. With built-in 3D images, you can place yourself in your own TV studio complete with desk and backgrounds.

# Audio mixing and monitoring

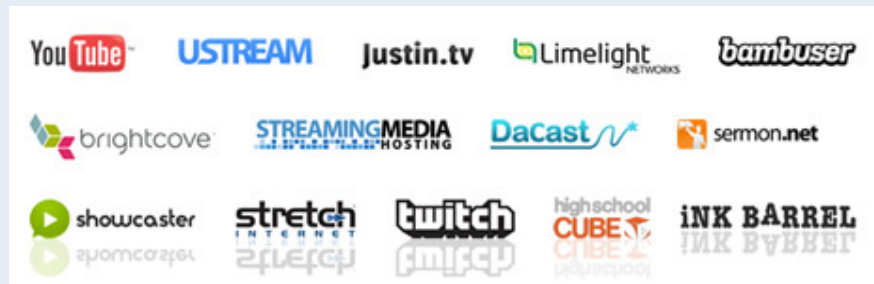

### Global Audio Inspector with Sync Delay **PRO**

Assign audio sources and control volume levels for your entire broadcast from one easy to use window. Use the AV sync to synchronize separate audio and video sources.
